| | Port | Address |
|---|-------|--|
| • | 8080 | https://8080-shenxianpen-gitpodjenki-6eszndtx99n.ws-eu104.gitpod.io |
| • | 50000 | https://50000-shenxianpen-gitpodjenki-6eszndtx99n.ws-eu104.gitpod.io |
| | | |

Vous choisissez le port 8080

Vous aurez cette interface.

Etape 2:

gitpod@shenxianpen-gitpodjenki-6eszndtx99n:/workspace/gitpod-jenkins\$ docker ps CONTAINER ID IMAGE COMMAND CREATED STATUS 7e63324729a8 gitpod-jenkins-jenkins "/usr/bin/tini -- /u..." 2 minutes ago Up 2 m: 6b0e77f31061 jenkins/ssh-agent:jdk11 "setup-sshd" 2 minutes ago Up 2 m: gitpod@shenxianpen-gitpodjenki-6eszndtx99n:/workspace/gitpod-jenkins\$

Listez les conteneurs avec **docker ps** , et copiez l'ID de celui de gitpod-jenkins-jenkins

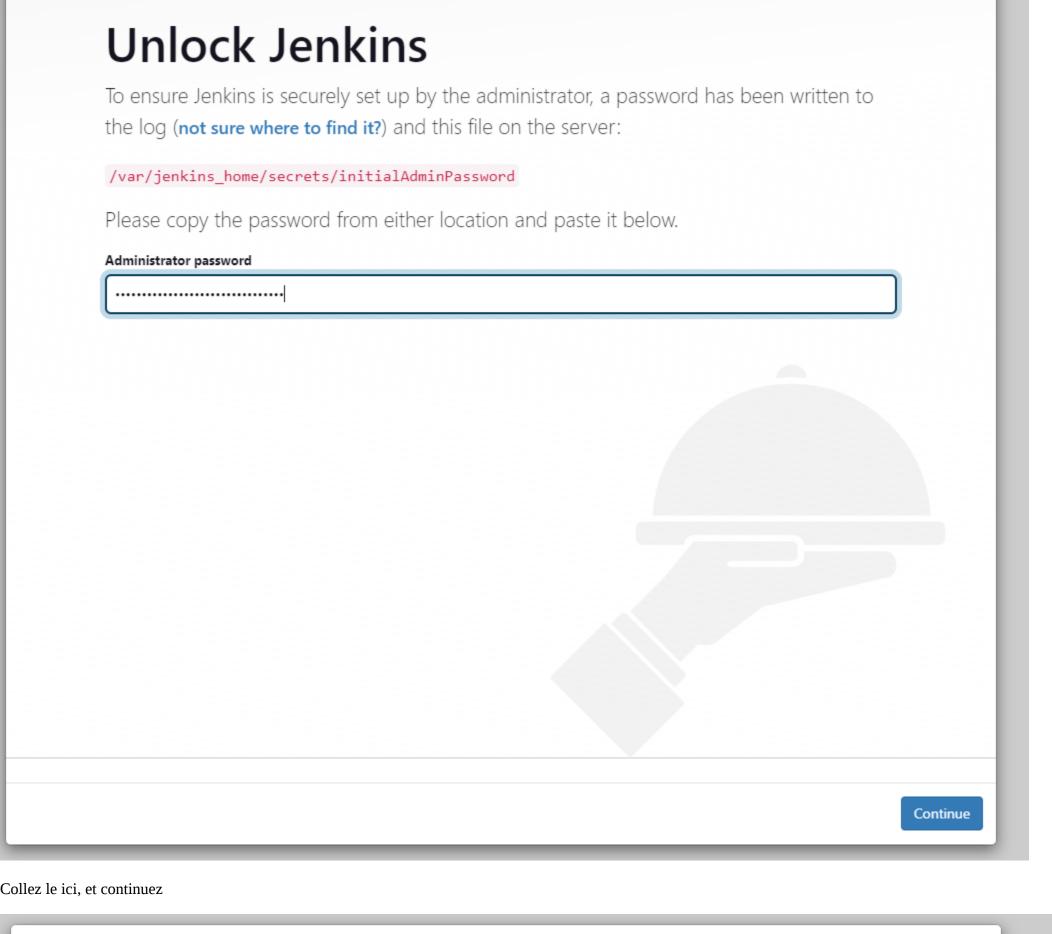

gitpod@shenxianpen-gitpodjenki-6eszndtx99n:/workspace/gitpod-jenkins\$ docker exec -it 7e63324729a8 bash root@7e63324729a8:/#

docker exec -it 7e63324729a8 bash

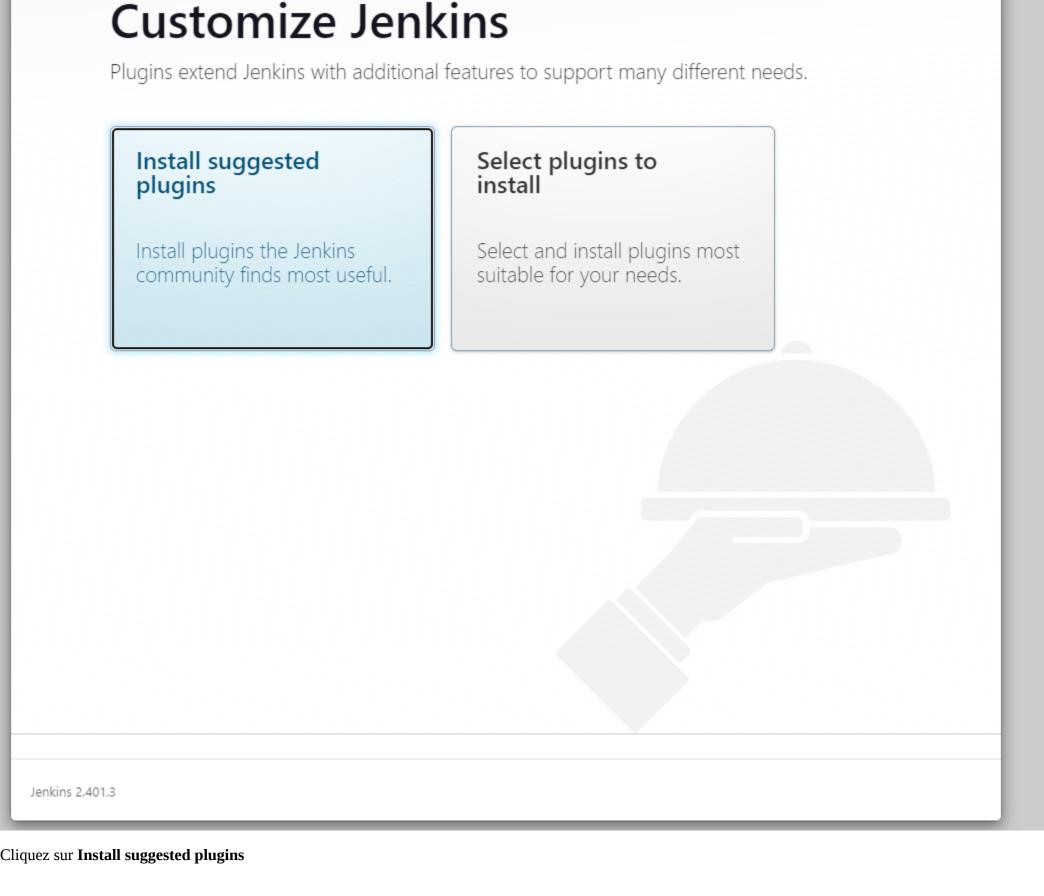

Getting Started

Vous changez **7e63324729a8** avec l ID que vous avez. root@7e63324729a8:/# cat /var/jenkins_home/secrets/initialAdminPassword aec80a01d09648dfb9b22162eb3bc9a6 root@7e63324729a8:/#

Vous executez cette commande pour recuperer le mot de passe initial cat /var/jenkins_home/secrets/initialAdminPassword

Getting Started

Save and Continue Skip and continue as admin Puis vous cliquez sur **Skip and Continue as admin**
